

ABQ Talent Development Academy is Tech-Ready on Day One

Industry:
Education

Location:
Albuquerque, NM

Products:
Managed IT Services, Network Infrastructure Implementation

Use Case:
Protected Customer Information
Reduce Cybersecurity Risks
Ease of Mind Network Support

Problem

ABQ Talent Development Academy needed a secure and reliable IT and network infrastructure to support their operations. Their priorities included:

- Ensuring compliance with data protection regulations.
- Safeguarding student and staff privacy.
- Maintaining operational continuity without disruptions.

At the same time, the Academy was preparing to relocate to a new facility.

Strategy & Solutions

To support ABQ Talent Development Academy's transition to a new facility, DSIT implemented a comprehensive IT infrastructure upgrade. The process began with:

- Onboarding all staff computers, servers, and student Chromebooks into their Mobile Device Management (MDM) system.
- Relocate the school's existing server infrastructure to the new campus.
- Install brand-new network equipment tailored to the Academy's operational needs.

Results

Thanks to DSIT's strategic planning and hands-on execution, ABQ Talent Development Academy was fully operational in time for the first day of school. Key outcomes included:

- All teacher laptops were configured and functioning smoothly.
- Student Chromebooks were successfully integrated into the network.
- Reliable access to digital learning tools was ensured from day one.

BY THE METRICS

300 Chromebooks

successfully loaded to system for students

20 Laptops

successfully loaded to separate system for faculty and staff

Daniel, Tim , and Jason brought DSI's core values to life through expert execution and proactive support. Daniel made the initiative to call several times and ensure systems were running correctly. With Tim's precise infrastructure setup and Jason's strategic oversight, the team delivered a seamless transition in one month. Their commitment to selfless service, passionability, and customer care made a lasting impact. **Questions? Contact Mathias Banks at mbanks@dsitnm.com.**
